

CITY OF POCA TELLO

JOB DESCRIPTION / CLASSIFICATION SPECIFICATION

Position Title:	Electrical Inspector				
Pay Grade:	G11		FLSA Status	Non-Exempt	
Department	Building Official		Supervised By:	Building Official	
FTE:			Position #:		
Date Established:	5/2014	Date of Review:	3/2025	Date of Revision:	03/2025

CLASSIFICATION SUMMARY

The Electrical Inspector performs skilled inspections of residential and commercial construction, including mobile homes to verify that electrical wiring, systems and equipment are installed in compliance with safety requirements and the National Electrical Code, local ordinances, and approved plans. This position also conducts Erosion and Sediment Control (ESC) inspections at residential sites. The job works independently in the field and must deal constructively with conflict and communicate effectively with people who may be angry, frustrated or confused. The Electrical Inspector is responsible for making decisions requiring technical discretion, sound judgment and familiarity with enforcement of a variety of electrical installation and repair problems.

The job requires an Electrical Journeyman certification, Electrical Inspector, and Erosion and Sediment Control (ESC) Inspector certifications. The job needs knowledge of construction, electrical codes, and the erosion and sediment ordinance to interpret the regulations into practical application. The job requires explanation of the relevant code and regulatory requirements to builders, developers, homeowners and the general public to describe what is needed/required in situations with deficiencies in safe electrical systems. The job involves keeping accurate and detailed notes and records for each construction site.

The work environment includes an office environment, outdoor weather conditions, extreme temperatures, in wet and humid conditions, with areas of dust, odors, mist, gases or other airborne matter. The job works at heights, confined spaces and is exposed to mechanical, electrical hazards. The job necessitates working around construction sites at all stages of completion which may involve falling hazards, open excavation and temporary safety installations. The job requires driving a vehicle.

ESSENTIAL DUTIES AND RESPONSIBILITIES *(illustrative only and may vary by assignment)*

Inspects new and existing electrical wiring and electrical installations in buildings and structures of any size or height to determine that installations conform to approved plans and applicable national electrical codes. Verifies that electrical equipment has the appropriate labeling and listings for the application. Performs on-site review of electrical plans and diagrams. Performs limited erosion and sediment control inspections.

Writes correction notices and requires corrections of deficiencies discovered in electrical wiring and installations. Monitors inspection area for work being performed without permits or proper occupancy approval and for dangerous conditions. Issues notices of violation, including stop work orders, citations and civil

CITY OF POCA TELLO

JOB DESCRIPTION / CLASSIFICATION SPECIFICATION

- penalties where unsafe or illegal conditions exist. Performs "aging" inspections of permitted work to verify work progress on projects with little documented activity.
- Coordinates the termination of power due to serious code and life-safety violations with the local utilities and the Building Official. Verifies the proper licensing of electrical contractors and journey-level workers. Responds to complaints from tenants about possible substandard housing conditions due to electrical code violations.
- Advises electrical contractors and homeowners on various installation problems as they relate to the electrical code. Provides information on electrical code and other related regulatory requirements.
- Coordinates activities with other departments and inspection staff by recording inspection results in database. Inspect, enforce and track compliance of City's ESC program for residential building sites, report and track violations, conduct re-inspections, and issue stop-work orders when necessary.
- Inspect residential sites prior to any earth moving work occurs throughout construction and conduct a final inspection before Certificate of Occupancy is issued.
- Enforce ESC ordinance at sites through verbal and written communication that provide warnings, notices of non-compliance, re-inspections, and Red Tagged jobs.
- Works with other inspectors to coordinate inspection coverage of the City and to ensure that electrical work is inspected and approved prior to the issuance of a certificate of occupancy, certificate of completion or other final approval.
- Demonstrates continuous effort to improve operations, decrease turnaround times, stream line work processes, and work cooperatively and jointly to provide quality seamless customer service.
- Performs other duties as assigned. Nothing in this job description restricts management's right to assign or reassign duties and responsibilities to this position at any time.

CLASSIFICATION REQUIREMENTS

The requirements listed below are representative of the minimum knowledge, skill, and/or ability required for an individual to satisfactorily perform each essential duty satisfactorily and be successful in the position.

Knowledge of:

- National and local electrical codes and applications;
- Methods and practices involved in constructing, installing, maintaining and operating a variety of residential, commercial and industrial electrical installations and appliances;
- Effective interpersonal communication skills;
- General customer service techniques;
- City construction licensing requirements and processes; including ESC ordinance and policy.
- Operation of a personal computer and job-related software applications.

CITY OF POCATELLO
