

CITY OF POCA TELLO

JOB DESCRIPTION / CLASSIFICATION SPECIFICATION

Position Title:	Public Works Director				
Pay Grade:	G19	FLSA Status	Exempt		
Department	Public Works	Supervised By:	Mayor		
FTE:	1	Position #:			
Date Established:	2/2017	Date of Review:	8/2025	Date of Revision:	8/2025

The Public Works Director directs the employees and operations of the City's Public Works utilities, systems, and services and its seven Departments: Engineering, Fleet Services, Public Works and City Capitol Procurement, Geographic Information Systems (GIS), Sanitation/Recycling Services, Street/Traffic Services, PW Business & Administration, Science & Compliance, and Utility Billing, Water, Water Pollution Control (WPC). The Public Works Director performs a variety of complex administrative, managerial and professional duties related to planning, organizing, forecasting, directing and coordinating public works utilities, systems, and services in the city.

The job requires strong leadership and communication abilities and problem-solving and decision-making skills. This is a highly technical position requiring the ability to relate technical information in layman terms to generate understanding and/or to mediate public relations issues. The job requires the ability to maintain a collaborative and cooperative working relationship with elected and appointed officials, other City employees, other organizations, and the general public.

The Public Works Director is the appointed Levee Manager as recognized by Federal Emergency Management Agency (FEMA), the United States Army Corp of Engineers (USAOE), and Idaho Department of Water Resources (IDWR). This position may be appointed by the Mayor and confirmed by the Council. Under general direction, work is performed within policies and administrative regulations with wide latitude for exercise of independent judgment.

The job requires considerable education and experience to successfully carry out the responsibilities of the position including short- and long-range planning for program and facility development; applying principles of management and supervision and motivation of staff; establishing and maintaining professional relationships with various public organizations and groups; working with political officials within and outside the City's organization; developing and monitoring the department's budget, and developing and implementing policies, procedures and practices for compliance with various state, federal and local regulations, and to ensure the general health and safety of the public and employees in the public works departments.

As the Public Works Departments directly affect the wellbeing, health, and safety of the residents of the City, this job requires a demonstrated knowledge and judgment of the methods and objectives of the operation, maintenance, and development of engineering systems, processes, and facilities. Such knowledge and judgment shall be applied within the procedure's best practices applicable to programs, projects, and functions of each department within the Public Works scope. Specific attention shall be directed to the regulatory compliance while analyzing operations and capital improvements within the Public Works departments. Many departments within the Public Works scope are regulated by federal state, and/or local agencies. An established understanding of the governing regulations is required. Additionally, this job requires the ability to maintain a collaborative and cooperative working relationship with elected and appointed officials, other City employees, other organizations, residents of the City, and the general public.

The work environment includes an office where the noise level in the work environment is usually moderate, with some exposure to varied weather conditions including exposure to extreme temperatures for field/site inspections.

CITY OF POCA TELLO

JOB DESCRIPTION / CLASSIFICATION SPECIFICATION

The job is an on-call position, responding to emergency situations and the ability to favorably react to such situations with sound judgment using education and experience to direct action within the Public Works departments, other system and utilities outside of the City jurisdiction, and other City departments.
