

CITY OF GRANTS PASS, OREGON CLASS SPECIFICATION

GIS TECHNICIAN I

FLSA Status : Non-Exempt
Bargaining Unit : GPEA
Salary Grade : G25

CLASS SUMMARY:

The GIS Technician I is the entry level in the three-level GIS Series. Incumbents are responsible for maintaining and updating relational, hierarchical, and spatial databases and providing user training and technical support. Duties include GIS land use data maintenance including creating addresses and reconfiguring the GIS system as changes require. Incumbents process records and documents, and post website information and images.

The GIS Technician I is distinguished from the GIS Technician II in that incumbents in the latter class perform more complex GIS duties which require a more thorough understanding of GIS techniques, particularly related to programming.

CORE COMPETENCIES:

- ***Integrity/Accountability:*** Conducts oneself in a manner that is ethical, trustworthy and professional; demonstrates transparency with honest, responsive communication; behaves in a manner that supports the needs of Council, the citizens and co-workers; and conducts oneself in manner that supports the vision and goals of the organization taking pride in being engaged in the community.
- ***Vision:*** Actively seeks to discover and create ways of doing things better using resources and skills in an imaginative and innovative manner; encourages others to find solutions and contributes, regardless of responsibilities, to achieve a common goal; and listens and is receptive to different ideas and opinions while solving problems.
- ***Leadership/United:*** Focuses on outstanding results of the betterment of the individual, the organization and the community; consistently seeks opportunities for coordination and collaboration, working together as a team; displays an ability to adjust as needed to accomplish the common goal and offers praise when a job is done well.

TYPICAL ESSENTIAL CLASS DUTIES: These duties are a representative sample; position assignments may vary.

- Develops and maintains Geographic Information System (GIS) layers related to planning and zoning, stormwater drainage, wastewater collections, water distribution, transportation systems infrastructure, and other municipal operations.
- Develops and maintains maps and tabular data from a variety of sources and provides technical support to non-technical users.
- Performs basic spatial analysis such as querying, measurement techniques, pattern recognition, and other techniques of a similar nature to support City departments.
- Assists City departments with GIS analysis to design and prepare a variety of custom maps, mobile and web applications, illustrations and other geographic representations that display layers representing spatial data.

*Employees of the City of Grants Pass uphold the values of
Integrity, Vision, Accountability, Leadership, United and Excellence in our service to our community.*

- Assigns addresses including review of planning applications for street name approvals and entering of addresses for new lots and buildings, notification to relevant agencies, such as post office, county assessor's office, fire service, public safety and utility providers, regarding new addresses and address changes.
 - Merges county database into City GIS database to update and reflect new ownership, lots and subdivisions.
 - Conducts site visits to verify and update data.
 - Responds to public request for GIS data and mapping.
 - Supports and guides other GIS users; provides basic training and troubleshooting of GIS-related problems to co-workers.
 - Attends meetings, conferences and training sessions to remain current on principles, practices and new developments in GIS; represents the City in various county and regional GIS meetings; and provides training and technical guidance to GIS users.
 - Operates a motor vehicle safely in compliance with Oregon rules and City policy.
 - Performs other duties of a similar nature or level.
-

Training and Experience (positions in this class require):

An Associate's Degree in a related field and two years of experience in GIS or other computer or web-based mapping are required; or an equivalent combination of education and experience sufficient to successfully perform the essential duties of the job such as those listed above.

Licensing Requirements (positions in this class require):

- Valid driver's license, Oregon Class C with an acceptable driving record
-

Knowledge (positions in this class require):

Knowledge of:

- Basic geographic information system concepts, practices, and techniques;
 - GIS software, tools, and applications;
