

CITY OF POCA TELLO

JOB DESCRIPTION / CLASSIFICATION SPECIFICATION

Position Title:	Water Construction & Maintenance Supervisor				
Pay Grade:	G12, G13 or G14 depending on State of Idaho license level		FLSA Status	Exempt	
Department	Water Department		Supervised By:	Water Superintendent	
FTE:	1		Position #:		
Date Established:	3/2014	Date of Review:	06/2025	Date of Revision:	06/2025

CLASSIFICATION SUMMARY

The Water Construction & Maintenance Supervisor supervises the Department's capital improvements projects and ongoing preventative maintenance programs related to the water distribution system. The job requires technical knowledge of industry practices in order to plan and supervise the employees performing the construction and installation of water mains, hydrants, service lines, valves, site grading, drain systems, and road surface repair work. The job manages leak detection surveys, valve exercising, and system flushing programs. The job requires a Class Drinking Water Distribution Operator certificate*. The job is supervised by the Water Superintendent.

Pay Grade	Licensure	Requirement
G12	Drinking Water Distribution II	Must achieve III within 24 months of hire.
G13	Drinking Water Distribution III	
G14	Drinking Water Distribution IV	

The job requires comprehensive knowledge of the operation, maintenance, and repair of the City water supply and distribution system. Error, omission, or negligence in the performance of maintenance crews could have serious consequences for the viability of the City's water supply, public safety, operation of the distribution system, or potential legal and financial liability due to non-compliance with federal and state requirements.

The job requires the ability to maintain a collaborative and cooperative working relationship with elected and appointed officials, other City employees, other organizations, and the general public.

The job directly supervises staff through Foreman and Lead Worker positions and supervises regular/seasonal/part-time employees.

The work environment includes an office and public street environment that may include exposure to adverse weather conditions, trench excavation, repair of pressurized systems (up to 250 psi), confined spaces, gases, dust, traffic hazards, moving vehicles and heavy equipment at the job site, and hazards involving the use of power tools and equipment. The noise level is generally moderate but with occasional exposure to noisy and/or loud equipment.

CITY OF POCATELLO

JOB DESCRIPTION / CLASSIFICATION SPECIFICATION

24 The job is an on-call position, responding to emergency situations. Employees designated as immediate
25 response personnel must live thirty (30) minutes or less from their usual daily work site.

26 **ESSENTIAL DUTIES AND RESPONSIBILITIES** *(illustrative only and may vary by assignment)*

27 Supervises the Department's capital improvements projects and ongoing preventative maintenance
28 programs related to the water distribution system. Ensures delivery of drinking water through the
29 conveyance of pipe distribution networks in compliance with all applicable Federal and State regulations.
30 Supervises the maintenance, construction, and installation of water mains, hydrants, service lines, valves,
31 and the storm drain system.

32 Determines priorities, makes daily work assignments, allocates resources and assets, reviews operational
33 efficiencies, and assigns crews and resources to short-and long-term installation and construction projects
34 and/or preventative maintenance programs.

35 Assists in planning long-term projects, including preparing bid specifications and coordinating with project
36 engineers and private contractors. Recommends annual budget items related to capital improvement
37 projects or equipment needs and monitors spending for compliance.

38 Perform pre-project notifications to affected parties including, but not limited to, public notification letters,
39 utilities, businesses, and residences. Tracks progress on projects, preparing reports and documentation.

40 Coordinates with other division supervisors, Public Works engineering staff, private contractors, and
41 inspectors to adhere to design documents and construction standards. Identifies, resolves and mitigates any
42 construction problems or minimize operational conflicts.

43 Develops and coordinates ongoing, on the job training, vendor and in-house training for water distribution
44 operator work tasks. Maintains safe working environment, supervising training in and implementation of
45 safety protocols and procedures.

46 Hires, trains, supervises, assigns, and evaluates employees, including disciplinary actions up to and including
47 terminations. Responsible for assigning and ensuring the availability of on-call stand-by personnel on a
48 rotating basis.

49 Obtains necessary permits and monitors job sites for compliance with traffic control and safety procedures
50 and protocols related to underground utility installation and road surface repair. Prepares accident and/or
51 damage reports and claims.

52 Utilizes computerized systems such as maintenance management, warehouse inventory, geographic
53 information, drawing viewers, permitting and as-built archive systems to schedule, assign, track and record
54 work requests on system assets.
